AMRISWIL AKTIV - BUG CHECK NO. 11

<https://amriswil.customerdevsites.com>
July 2022, Version 11

INFORMATION BROWSER

https://amriswil.customerdevsites.com

Serap is checking on Thursday, 04th of july 2022
with Google Chrome on Mac
Browser width 100%
2560 x 1440 px

EVENTS

- 1 Although the events are marked as draft, they appear when I click on the checkbox here:

Events must not be visible, when status is draft.

NICHT VERPASSEN!

The events are also visible on the frontpage! They must not be visible here, if draft.

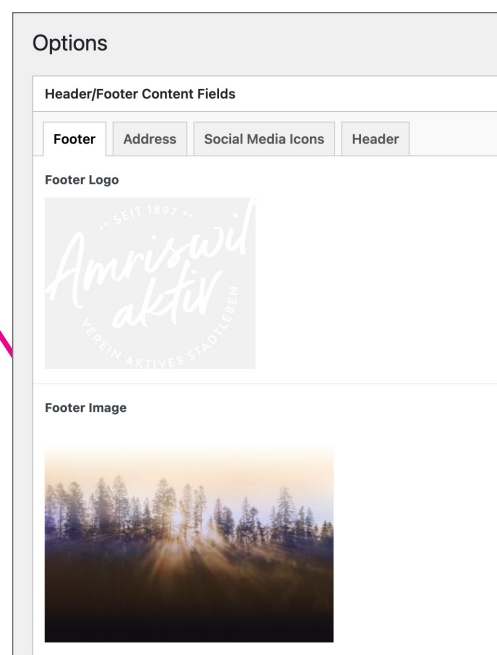

FOOTER

- 1 There still are pages with a bad picture in the footer! Where can I change this myself?

<https://amriswil.customerdevsites.com/events/1-august-feier-amriswil>

I can see the options and the picture is correct. But not online.. I even deleted this picture - why is it still there?

FOOTER

1 I want to become a member, so I filled out this form here:
<https://amriswil.customerdevsites.com/anmeldung-mitgliedschaft/>

After filling out and sending the form, I get this message: Sorry, there are no seats left!
I want to become a member - why do I need a seat?!?!?

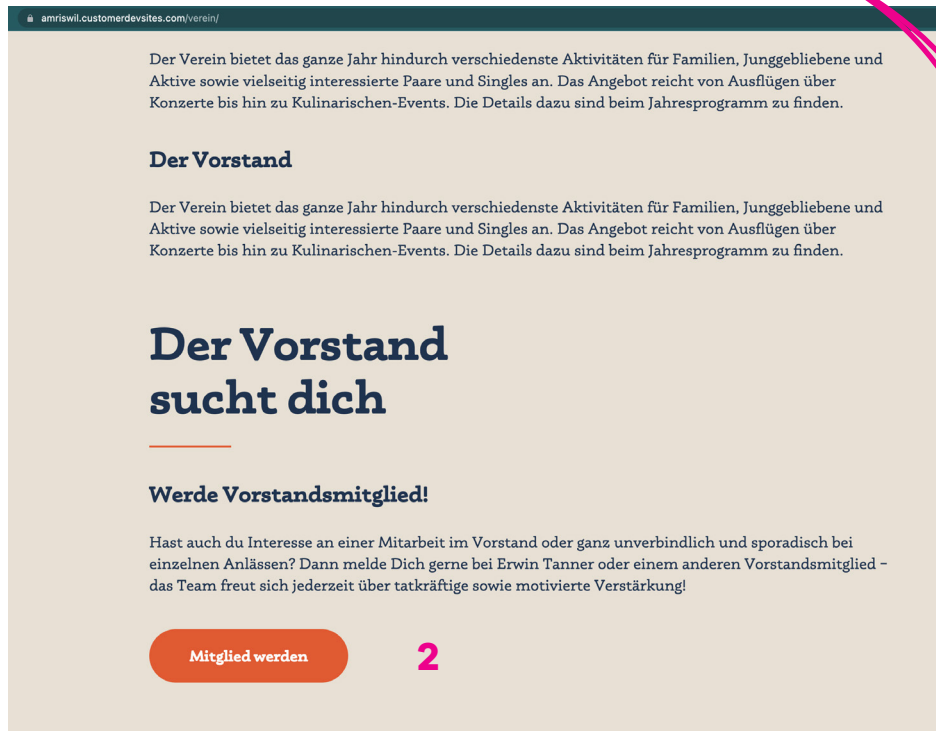

1

MEMBER

1 The button „I want to become a member“ is linked to a wrong page. It has to be linked to:

<https://amriswil.customerdevsites.com/anmeldung-mithilfe/>

2 I want to be able to change this button, its content and link. Where can I do this? It is not part of the backend options. Please allow us to change them.

3 Same problem in the footer: This worked before!
